Chapter 1 by Michael Archbold

My dad and I decided to go on a road trip to Miami from CA, but there was one problem. Whenever we filled the van with the contents that we would take on this trip with us they would mysteriously disappear. We would ask our neighbors if they saw anything but they always just questioned whether we misplaced it or ever put it in the van in the first place so we had to postpone the trip and call the authorities. They told us that they couldn't do anything about it, so I decided to take things into my own hands. While my dad was sleeping that night I sneak into the garage and tape my Go-pro in the corner of roof.
